"Designed for everyone.

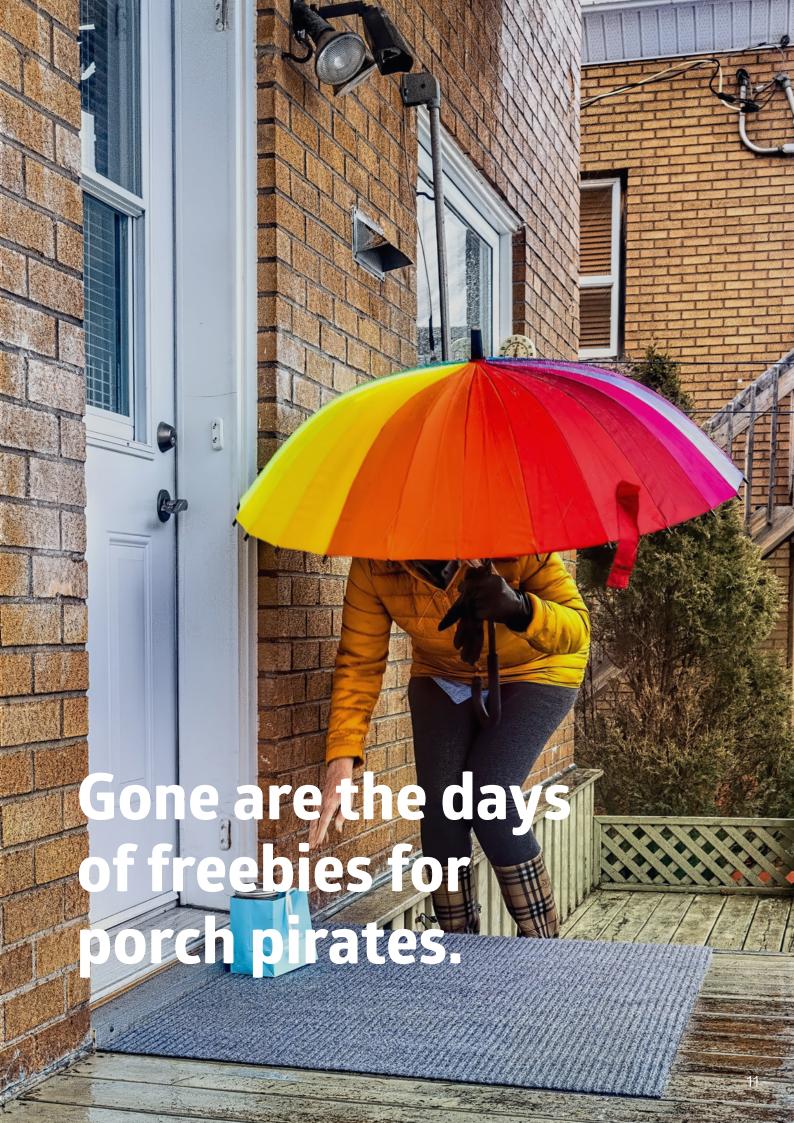

Gone are the days of tracking parcels.

In 2020 a group of engineers developed an all-new genetic code: the DNA of a parcel receiver – iconic, robust and almost indestructible.

D-box lets your home take care of you and helps you free your time.

NASA does my shopping.
SpaceX Dragon delivers.

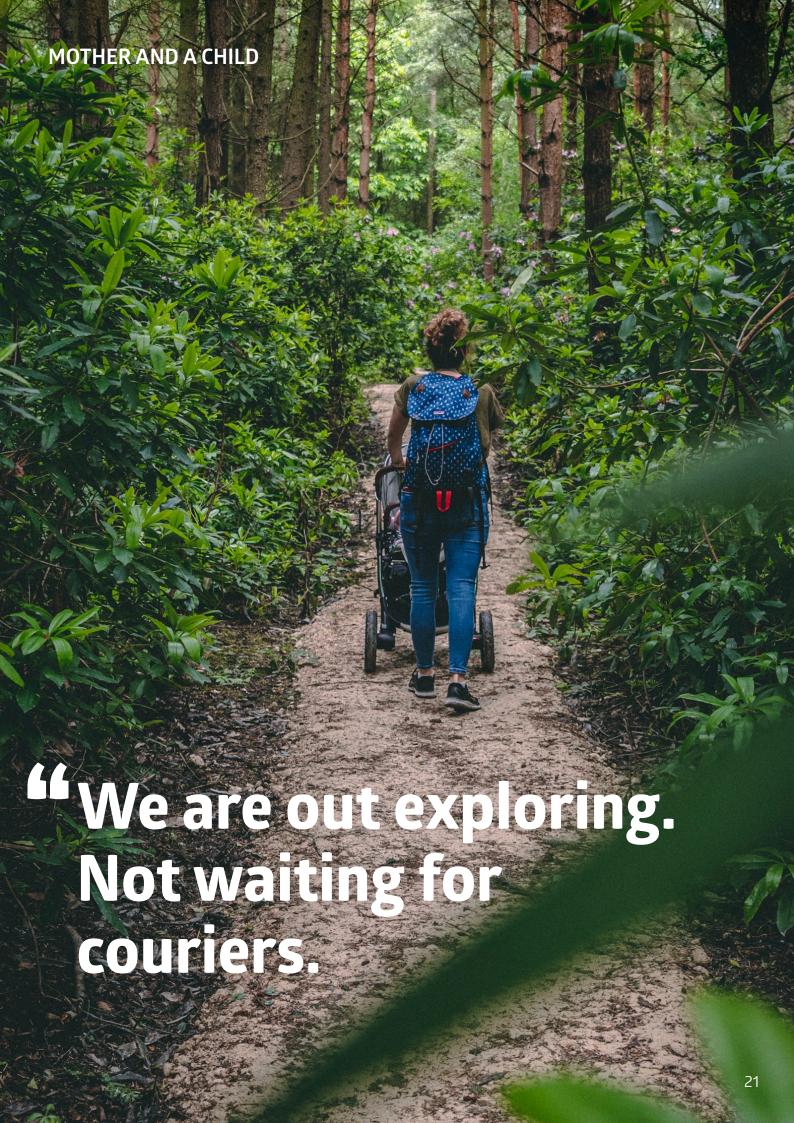

Shopping is boring. I was 6 when I went to a store on my own for the first time. Exploring the store alone was a fantastic experience.

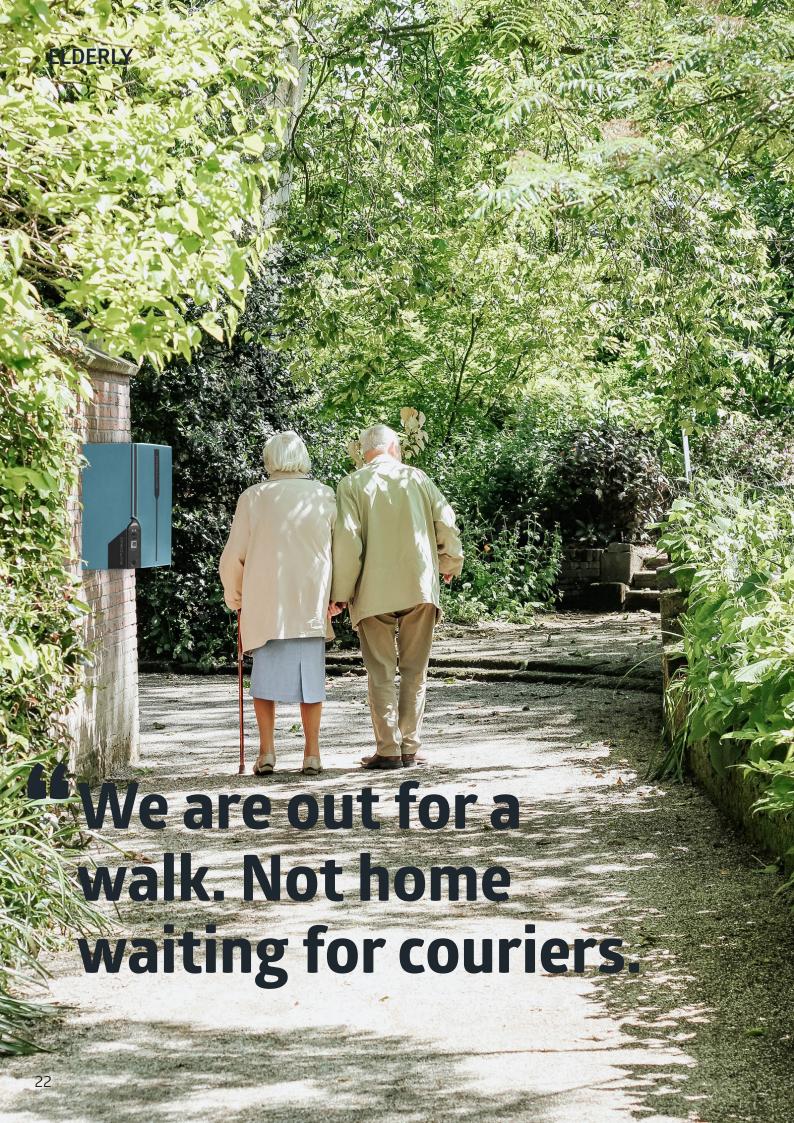

A year later I can barely read and write but I am a regular shopper now. I collect the same products from the same shelves. The thrill of shopping is gone. I do not enjoy it. I just get it done.

Wait for couriers.

Free your time

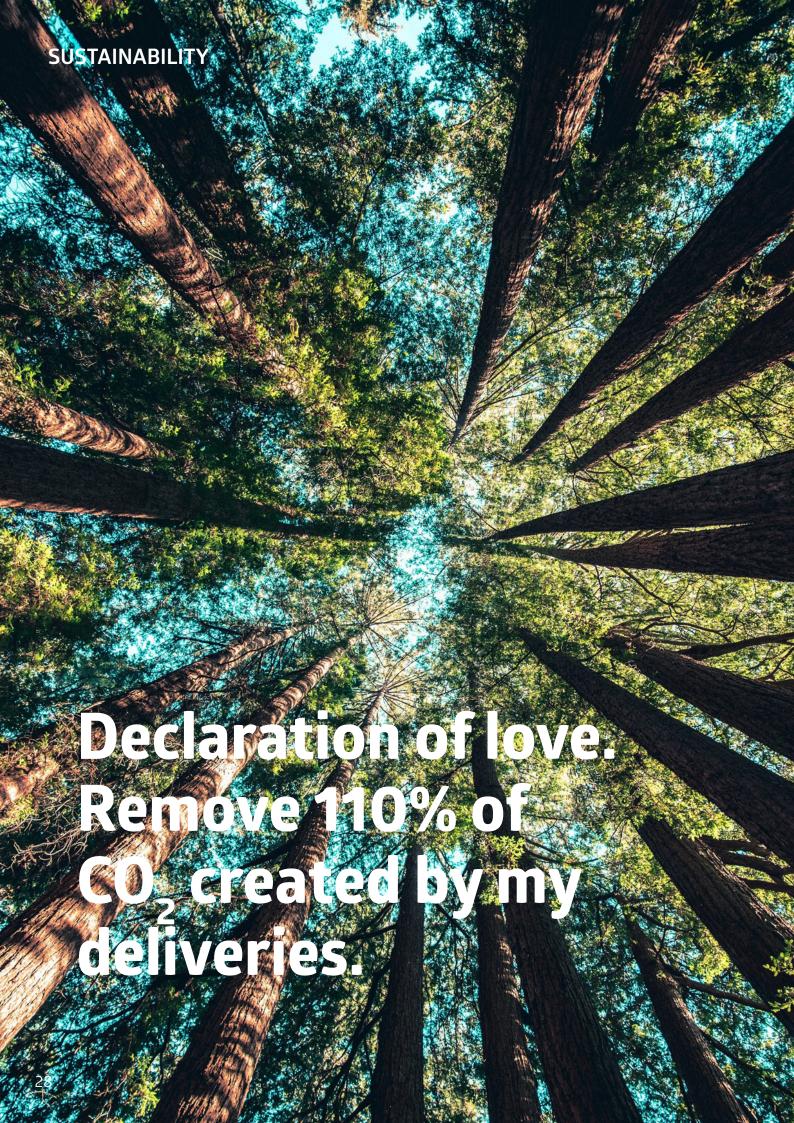

Get parcels at home without the wait

Your D-box parcel receiver is always at home. At your doorstep. Taking care of parcels. So you don't have to.

Get parcels at home without the wait

Your D-box parcel receiver is always at home. At your doorstep. Taking care of parcels. So you don't have to.

Free your time. Get D-box.

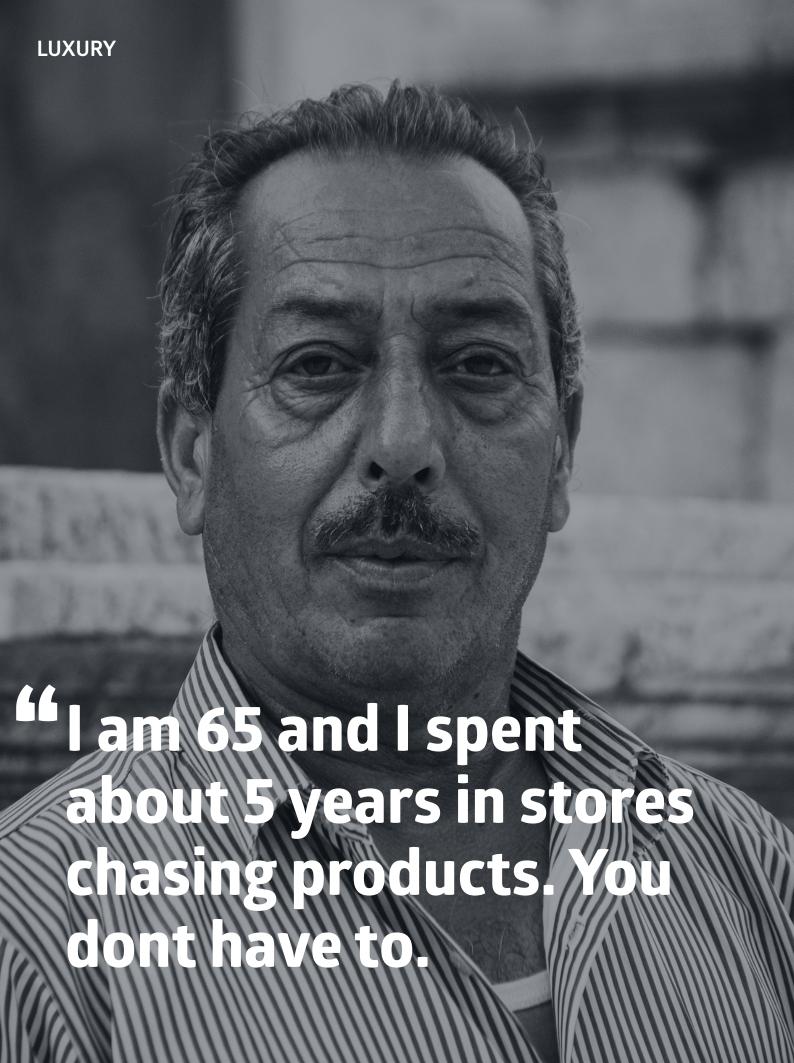

Just in time

JIT or just in time is a production and inventory control system in which materials are purchased and goods are produced as needed to meet actual customer demand. Just in time reduces inventories to the minimum and in some cases zero. Subscriptions allow brands to produce just in time.

Same product for half a price with JIT. How?

- 1. More cost efficient production
- 2. Continuous quality improvement
- 3. Waste elimination
- 4. Improved productivity

- 5. Improved relationships
- 6. Reduce storage space used
- 7. Reduce storage costs
- 8. Reduce manufacturing time

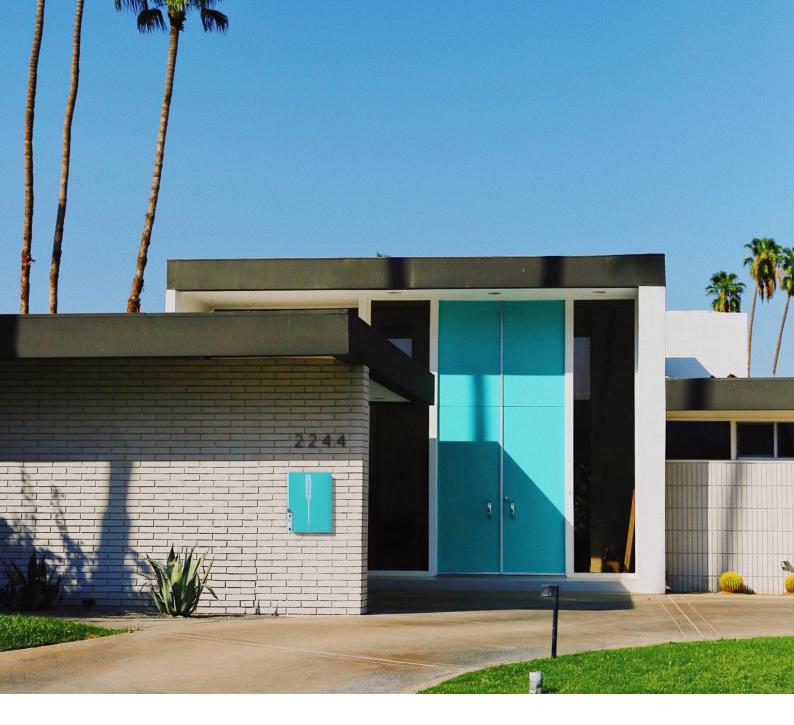

Direct to consumers

For brands it is much easier and **less capital intensive** to get shelf space online than in Walmart. Online retailers are fast to adopt new technology and new ideas. Direct-to-consumer (DTC) refers to selling products directly to customers, **bypassing** third-party retailers, wholesalers, or any other middlemen.

Smart home

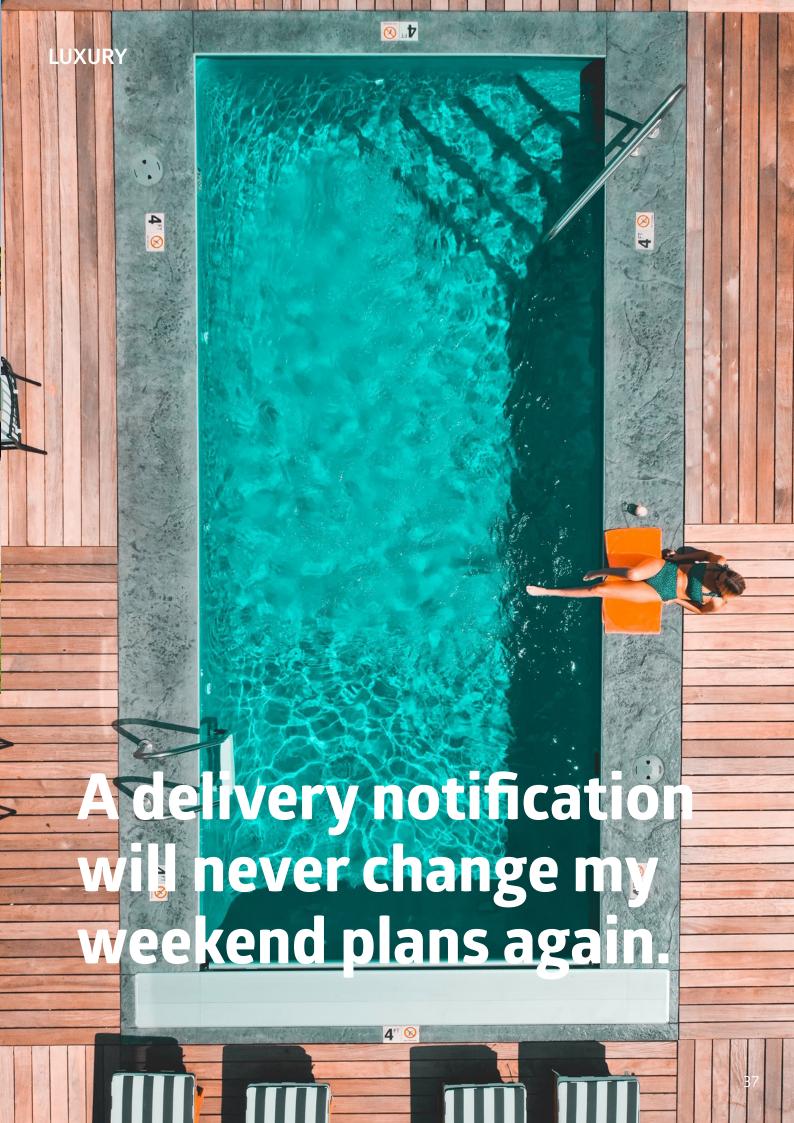

Smart home tech increases property value. My homes have water, energy, information and now - the **product utility**. Utilities provide convenience, safety and comfort buyers demand from modern homes and add to the **property value**.

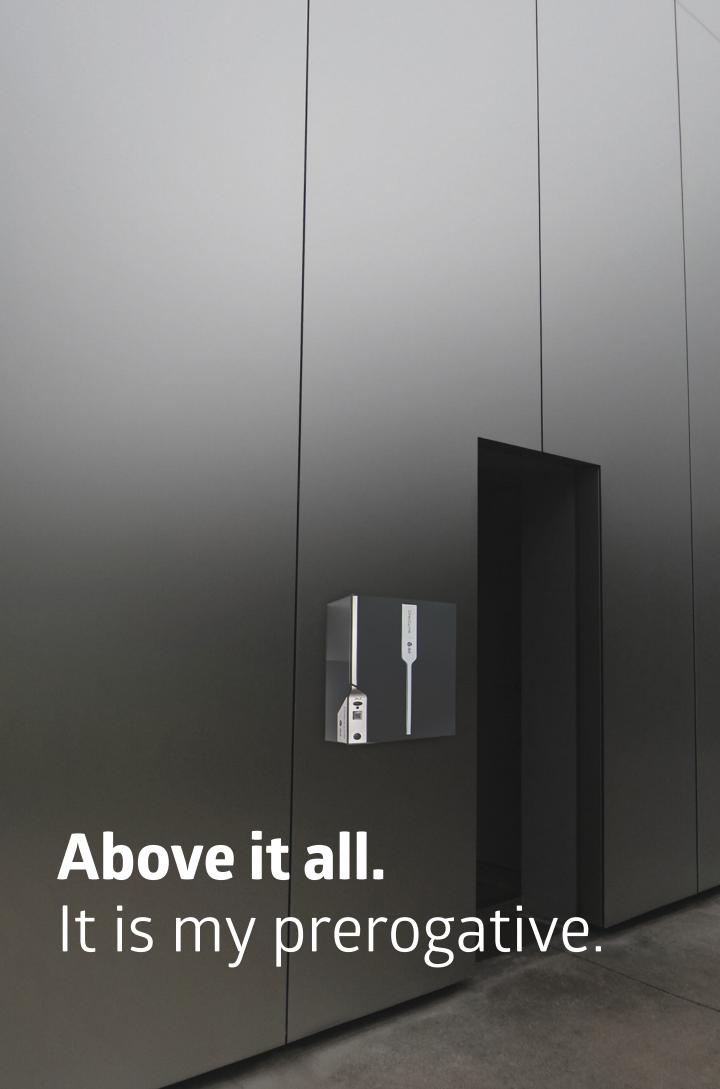

Epicentre of strength

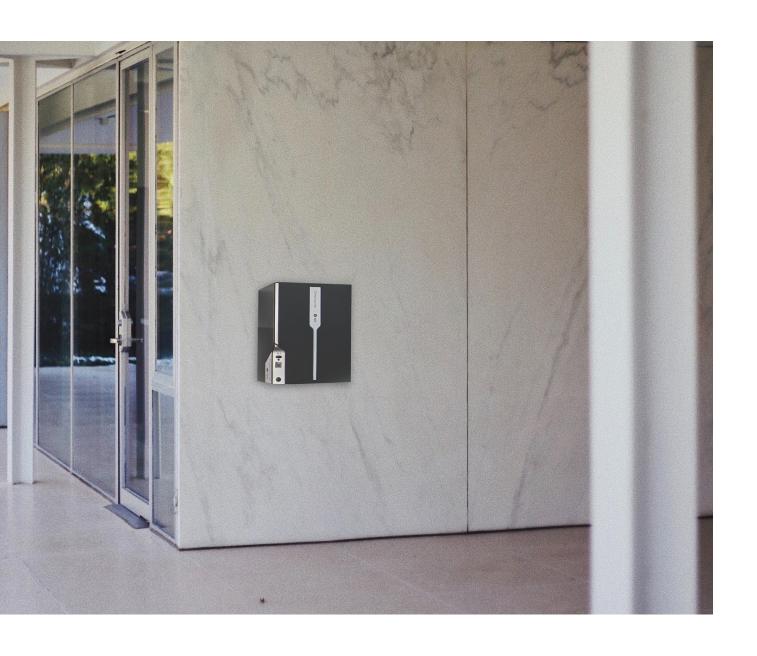

We believe every home should have **access** to water, energy, information and product utilities to provide opportunity, safety, resilience and convenience people need and deserve. **D-box** is the border between the outside world and my sanctuary.

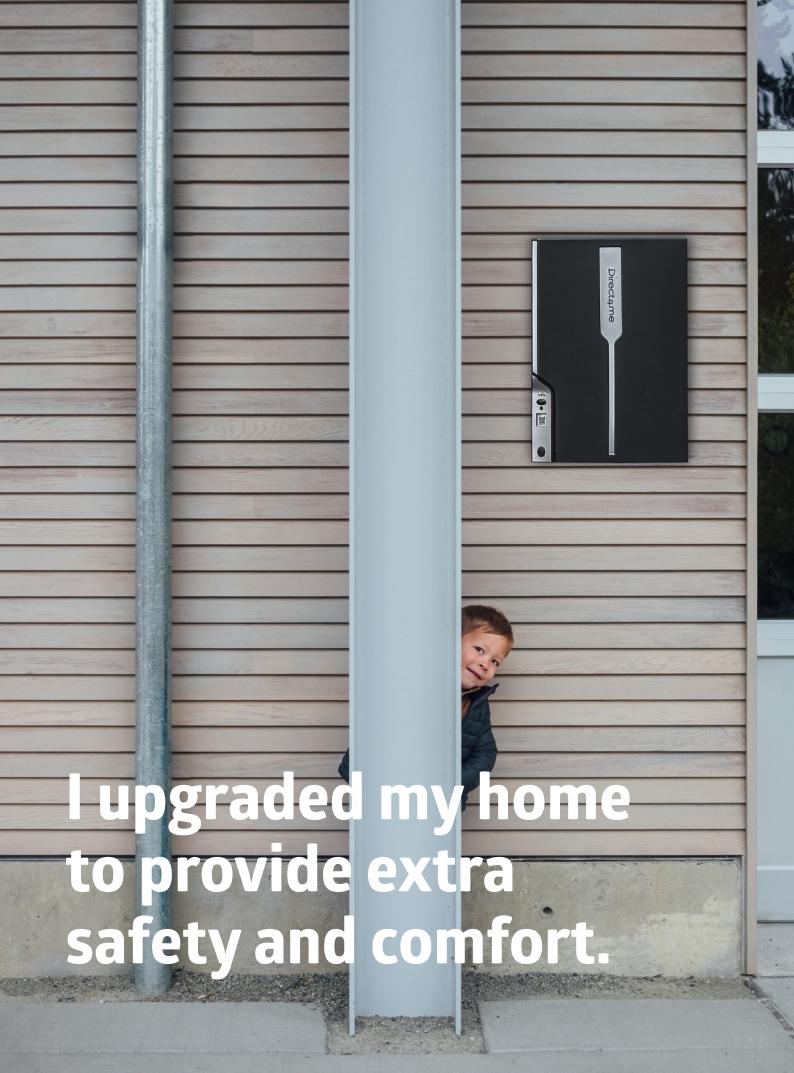

We all get old. With age and restricted mobility chasing products in stores becomes hard. We want to be **taken care of** in the safety and comfort of our own home.

Inclusive

Works with **any** phone. **Share** it with neighbours. Open for all **couriers**.

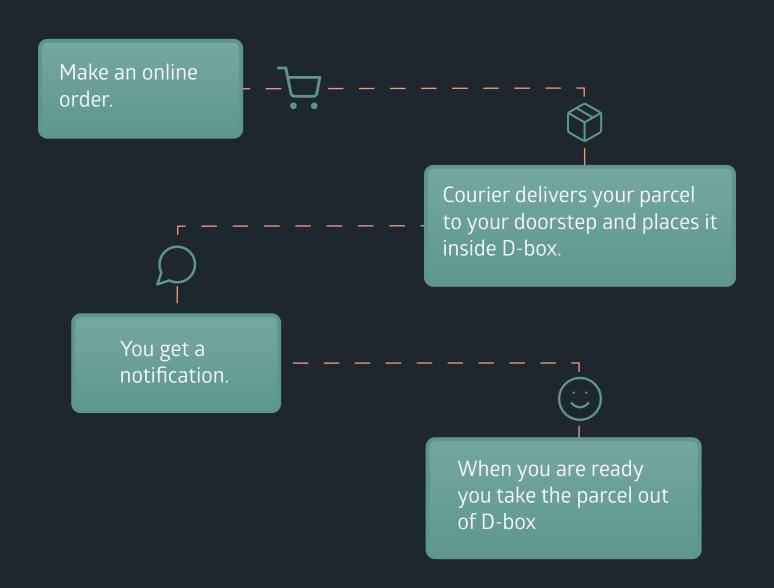

Young entrepreneurs

A store is an off limits **playground** for us. High fixed costs and uncertain revenue. Our **brands** are online only.

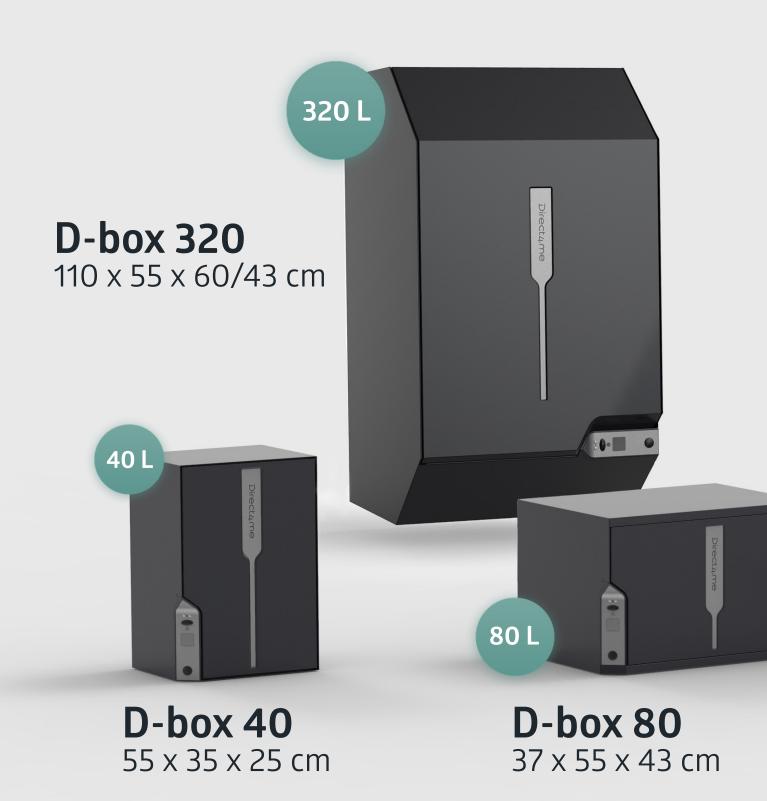

Locals can enjoy our curbside pickup.

How it works?

Models

D-box 160 74 x 55 x 43 cm

Picture this. **You** are in a hotel. You turn on the shower - no water. Flip a switch - no lights. Connect to WiFi - no internet. Dial customer service - no signal.

If there is no basic infrastructure you are not happy. Good infrastructure provides certainty. It provides **convenience**.

Good infrastructure eliminates thinking and improvisation.

Good infrastructure **saves** time and effort. D-box lets your home take care of parcels so you don't have to.

Privacy is a fundamental human right. Numbered like a swiss bank account D-box protects your privacy.

Our purpose

To build **ecommerce infrastructure** to let your home take care of the shopping. Autonomously, in silence, without interrupting you.

To make your supply carbon neutral by planting trees.

To remove the **distance** from home to product providing equal access to all.

To remove **shelf space constraints** to let brands experiment with new products.

More **opportunities** lead to more brands, more jobs, more choice, better products and lower prices for consumers.

Built for future. Ready now

No building permits. No power. No WiFi. Contactless.
