Direct4.me Digital Platform

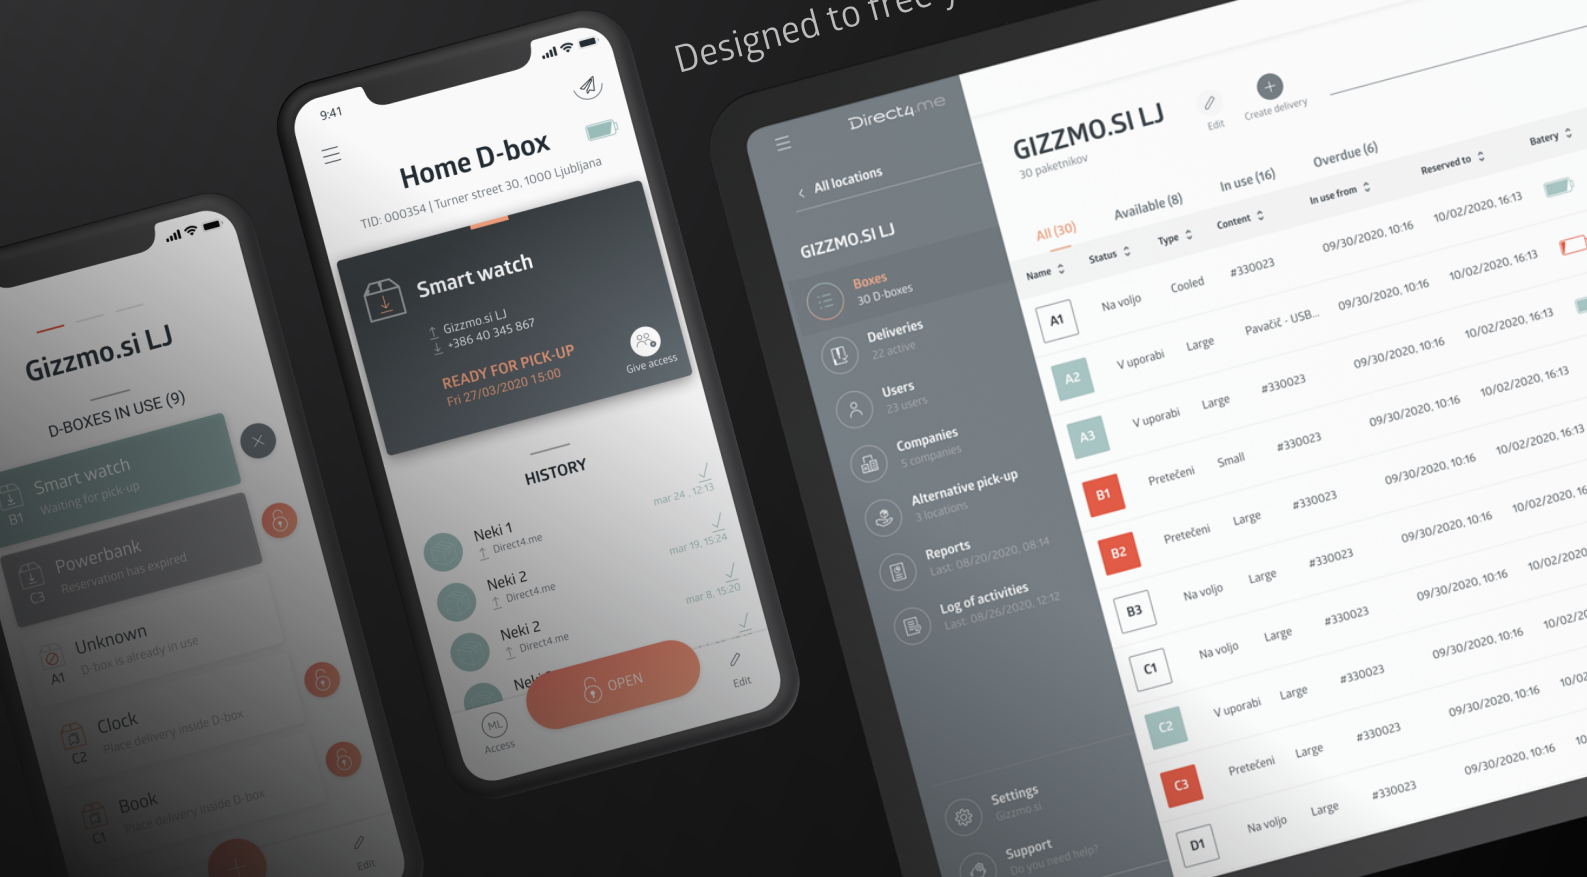

“ Our mission is to free your time. And we have a platform for that.”

Eduard Bockai
CEO

Technology used in Direct4.me has a proven record with more than 1B transactions in payment, loyalty and identification services across the world. It supports couriers mission critical process with full integration and lets small webshops provide click and collect service with zero integration.

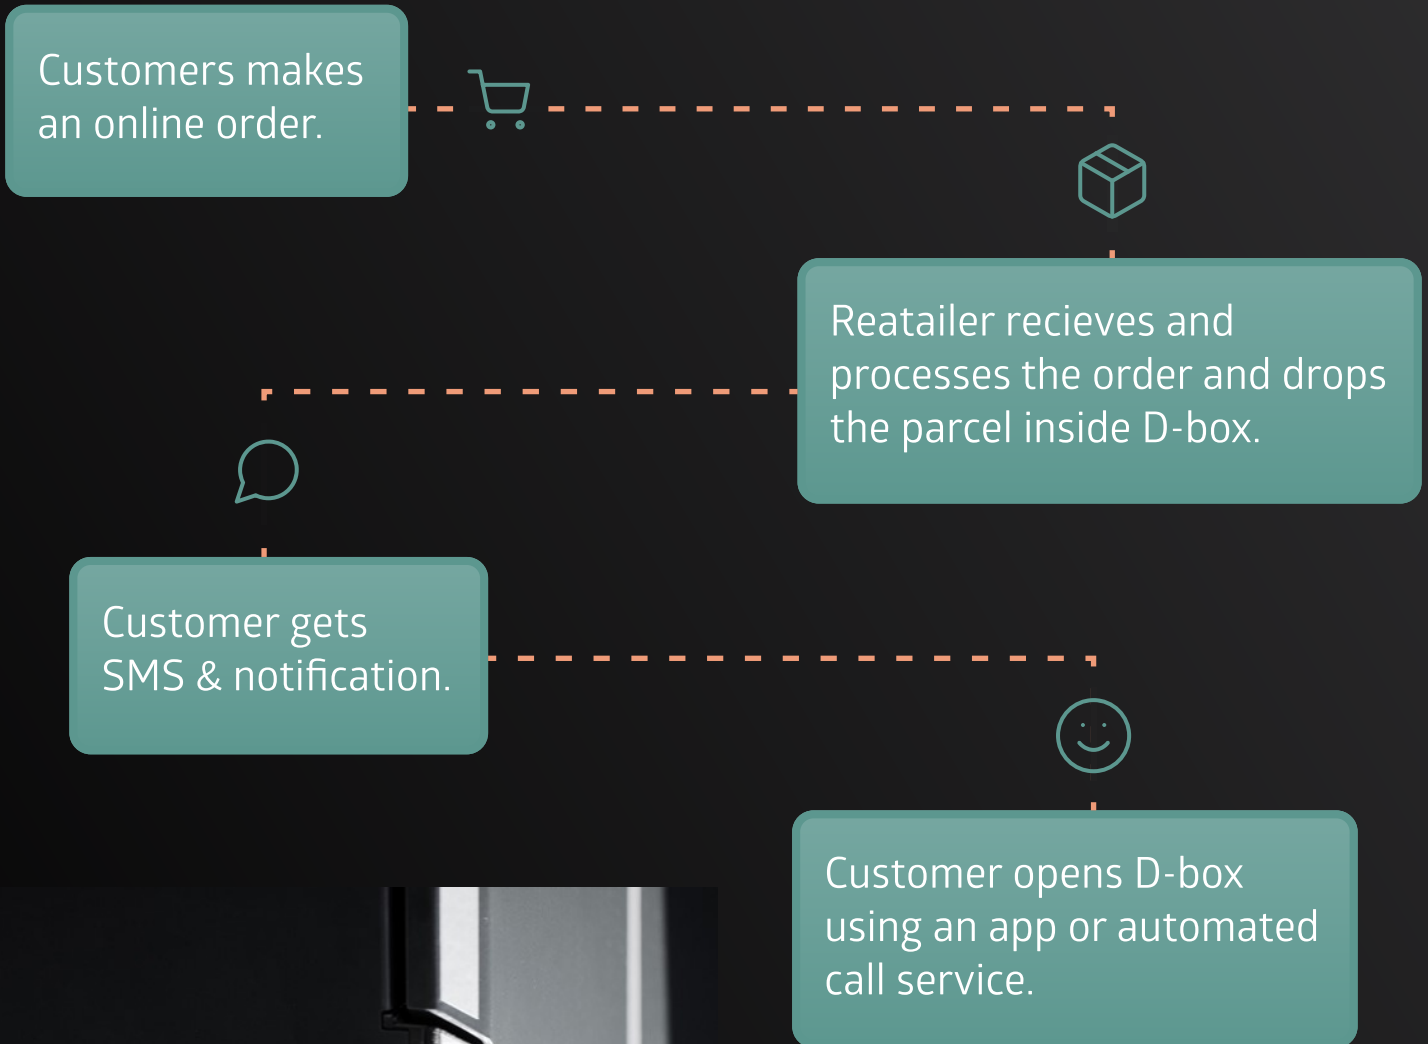

- ✓ Native mobile apps
- ✓ Robust backend
- ✓ Web portals
- ✓ APIs to support your business's needs

Designed to free your time and provide frictionless UX.

User journey

07

Together

We are big fans of KISS. Keeping it simple for us means being able to open a parcel receiver with any phone. With an app or without it. With minimal cognitive load or without it.

Getting the parcel is just one step of your customer journey. We help create and capture value at each and every step of customer journey helping you learn and improve with every transaction.

Gone are the days when you tracked parcels. Waited on deliveries. Waited in lines for pickups and returns. Gone are the days when you wasted time chasing products.

A simple and easy to use D-box helps

End users

- ✓ Relieve delivery anxiety
- ✓ Get parcels in their own time
- ✓ Stay safe (contactless with no waiting in lines)

Brands

- ✓ Defend and grow market through convenience
- ✓ Build value by exceeding expectation

Couriers

- ✓ Deliver first time every time
- ✓ Improve operational performance
- ✓ Defend and grow market share
- ✓ Stay safe
